please do not report the images to the
Image Problem Mailbox.**

REMARKS

This is in response to the Notice to File Corrected Application Papers dated February 25, 2004.

In the Notice, the Customer Service Center stated that the drawings as submitted were not acceptable under 37 CFR § § 1.24 and 1.121 based on the contention that the Numbers, letters, and reference characters on the drawings must measure at least 0.32 cm (1/8 inch) in height.

In response, Applicant respectfully submits the enclosed REPLACEMENT SHEETS which are believed to be in compliance with the above referenced regulation sections. ANNOTATED SHEET SHOWING CHANGES are additionally submitted herewith (see Exhibit A) which identifies the changes made between the REPLACEMENT SHEETS and the ANNOTATED SHEET SHOWING CHANGES.

In particular, in Figure 2, all reference numerals have been replaced with typed lettering instead of the hand written reference numerals. The hand written figure number has been replaced with typed lettering. The times of day (MORNING, NOON, EVENING, AND BEDTIME) and days of week (SAT – SUN) across 116 have been enlarged to measure at least 1/8 inch. And, the text on 106 which did not measure at least 1/8 inch was replaced with squiggly lines.

With respect to Figure 3, similar changes have been made to Figure 3 which have been made to Figure 2. In particular, the text on the indicia flap 106 (i.e., left flap) which did not measure at least 1/8 inch in height has been replaced with squiggly lines. And, the times of day (MORNING, NOON, EVENING, AND BEDTIME) and days of week (SAT – SUN) across 116 have been enlarged to measure at least 1/8 inch.

Applicant respectfully submits REPLACEMENT SHEET with respect to Figure 1 which provides typed lettering for the reference numerals and figure number.

In conclusion, Applicant respectfully submits that the formalities with respect to the drawings have been met.
